INFORMED CONSENT FOR INCLUSION IN DATABASE

The case history of patients seen at our voice clinic will be compiled in a database for record keeping purposes. This will greatly assist in evaluating and validating treatment efficacy. Additionally, data may be used for research purposes in an ongoing attempt to deliver a responsible professional service. Should you agree to have your data included in our database the following procedures will be followed:

- All information will be treated as confidential. Data processing will be done using a code and NOT by name.
- You will have the right to request that your data be withdrawn/deleted from the database at any time.
- Coded data will be stored electronically.

To give your consent to include your data in the database, please complete and sign the section below:

I,

hereby confirm that I have read and understand the above-stated information. I hereby consent to include my case history/information in the database. I understand that data will be stored under a code to protect my anonymity.
